ONE CENT

COMMITTEES ANNOUNCED FOR THIRD LIBERTY LOAN DRIVE

Campaign will Open with a
Meeting in M. E. Church
Thursday Evening

GOOD SPEAKERS TO BE PRESENT

Kerfoot W. Daly, chairman of the Liberty Loan committee for the eastern section of Washington county, has announced the make-up of the committees which will have in charge the campaign in Charleroi and which are to sell the Liberty Bonds which will be offered from and after the 6th of April for a limited period.

The local campaign will open with a public meeting Thursday evening at 7:30 o'clock in the Methodist church. Prominent and well informed speakers will be on hand who will present the many phases of the Third Liberty Loan and the necessity for its success, not only throughout the country but in Charleroi as well. Mr. Daly has secured the services of W. S. VanDyke of the Real Estate Trust Company of Pittsburg, who will be the principal speaker of the evening, and R. V. Euler from the Central Liberty Loan committee, also from Pittsburg. These men are expected to give the members of the various committees the necessary information by means of which they can approach the citizens of the community in their efforts to sell this new issue of Liberty Bonds. As announced the committees are as follows, Mr. Daly being the chairman of the general committee for Charleroi:

Executive Committee—
K. W. Daly of Bank of Charleroi.
R. H. Hush of First National Bank.
E. W. Hastings of Charleroi Savings & Trust Company.
Special Subscription Committee—

Charleroi Is Ready To Entertain Labors' Hosts

Next Monday, April 1st, Charleroi will entertain the hosts of labor, which will come to our city to celebrate the twentieth anniversary of the eight-hour day. Idle mines all along the valley and throughout the District will permit thousands of people to come to Charleroi to participate in this demonstration, which is expected to be one of the most successful ever held by the Labor unions.

The committees in charge of the various details of the celebration are working with all their energy to present a program that will be filled with action every minute of the day; a parade in the morning, addresses by prominent visitors and games and sports all day at the ball park. All of these attractions are expected to afford information and entertainment to those who will visit our town on that day, and if the weather be fair, for which we all hope, they will number well into the thousands.

Charleroi was selected for this demonstration because it is more centrally located and better prepared to entertain large gatherings than any other town in this section of the valley. Lines of transportation make it easy of access from every point, rail, trolley and bus lines giving people the accommodations so earnestly desired on such an occasion. And we have no doubt that all these facilities will be taxed to the utmost to accommodate the people who will come in great numbers to be our guests for the day. We hope for them that the skies will be propitious for with suitable weather for this holiday there will be no question as to the success which will follow.

NEW FLAGS ARE BEING RAISED

The first organization to respond to the appeal of Burgess Woodward for clean and new flags was the Turn Verein, a new emblem being raised above their club house this morning. The Borough will have new flags on Saturday, when they will be displayed for the first time.

Burgess Woodward calls attention to the fact that on Monday next 121 men will leave Charleroi for Camp Lee, Petersburg, Va., to enter training in the National Army. He therefore asks all of our citizens and particularly the business houses to display new or at least clean flags on that day. However it will be an inspiring sight to the boys who have been called and who will respond to see bright national emblems raised to full mast on every house in town. The time is short in which to get new flags but a ready response to this appeal will likely find everybody supplied.

Bertie Helen Crawford.
Bertie Helen, daughter of Mr. and Mrs. Hawkins Crawford, died this morning at 12:20 o'clock at the home of her parents, 219 Fallowfield avenue in the 16th year of her age. Funeral services will be held Friday afternoon at 1 o'clock, in charge of Rev. Huffer, with interment to follow in the Monongahela cemetery.

GET SIX MONTHS TO COUNTY JAIL

Frank Shebath and Harry Craft, who are said to hail from the Belle Vernon section and who were arrested in Charleroi about ten days ago for the robbery and assault on Nick Gerber, a North Charleroi about two weeks ago, when a gold watch and a sum of money were taken from the proprietor entered pleas of guilty in the criminal court at Washington on Monday before Judge Brownson. They each were fined \$1 and costs and sentenced to undergo imprisonment in the county jail for six months.

The prosecuting parties differed somewhat, the defendants claiming the quarrel between the men was because of a difference between Gerber and Shebath as to who paid for the drinks at a local hotel on the night of the assault. Shebath claimed to have paid for the refreshments and that he was attempting to get back the money he had paid out on account of drinks for Gerber. However, there appeared to be no explanation why all of the prosecutor's money was taken, amounting to about \$50 nor why a gold watch was missing from Gerber's person, which was found later here in Charleroi. Judge Brownson evidently took the tale of the defendants with considerable allowance and imposed a penalty of imprisonment which will keep them under cover until next fall.

MUST DELIVER OLD CLOTHING BEFORE FRIDAY

Those who wish to contribute old clothing to the Belgian relief mission should send them to Mrs. A. W. Day at Hotel Arthur before Friday. The shipment is to be made on Friday and as it requires some time to pack boxes it is absolutely necessary that all deliveries be made before that time.

It will be almost a miracle of the troops of the United States keep out of this offensive. They are ready for business over there, and will show Kaiser Bill, let us hope, a few kinks he never saw before.

CHARLEROI'S CONTRIBUTION OF MEN TO NEXT QUOTA OF DRAFTEES

HELD FOR COURT ON DESERTION CHARGE

Angeline Pruster, who was arrested by the local police Tuesday morning on a charge of deserting her infant babe was given a hearing last evening before Justice of the Peace R. J. Whitehead. After hearing the testimony the woman was held for court and will be taken to jail to await trial at next term of criminal court. The police have been on the hunt of the woman for the past two weeks and learned yesterday that she was in town. She was located at the home of a woman friend and her arrest speedily followed.

RIVER TRAFFIC SETS RECORDS

Tonnage in 1917 Largely
In Excess Of The
Previous Year.

INCREASE EXPECTED THIS YEAR

According to figures made public on Monday by United States Engineer F. W. Arras the amount of freight carried over the Monongahela river in 1917 was the greatest in the history of the river, showing an increase of 3,132,460 tons over the tonnage of 1916, the previous record year. The figures submitted by Engineer Arras were compiled from the records of the Pittsburg office and are therefore official. Last year 16,009,133 tons of freight were carried on the Monongahela, while in 1916 the net tonnage was 12,875,675 tons.

The commerce on the river in 1917 was 800,000 tons more than the previous year. Of the total tonnage of 1917, 12,300,000 represented coal, the other freight consisting of iron and steel products, coke, lumber, sand, gravel and miscellaneous merchandise. Coke was shipped on the Monongahela last year for the first time in 20 years and 294,195 tons were transported. The traffic in coal and supplies on the Monongahela is increasing and it is even greater than that carried on the Ohio.

Rivermen are of the opinion that the rivers are beginning to play a very important part in solving the transportation problem as many of the manufacturing interests are using the waterways for the transportation of coal to their plants along the waterfront. While not as many steamboats are in commission as in former years, they are running more closely to a schedule, towing barges loader to their capacity. The year 1918 is expected to show a decided increase in the way of tonnage and the figures for the year are expected to approach very closely the 20,000,000 tons predicted for the commerce of the Monongahela.

Draft Board Selects Twenty- four Registrants from this Immediate Vicinity

A LIST OF THOSE CALLED

Twenty-four men have been called from Charleroi and vicinity to report next Monday morning at 8 o'clock at the Elks parlors, preparatory to their departure for Camp Lee, Petersburg, Va., to enter the military service of the United States. When the men report Monday morning they will be called and receive final instructions from the members of the draft board. The draft board will select a captain for the registrants, who will be in charge of them until they arrive at Camp Lee. As now proposed, the men will travel by the Pennsylvania going by way of Harrisburg and Washington City on the way south. Whether any particular companies in their homes will be given to Charleroi residents has not yet been determined, although it is possible that arrangements to this end may be made between now and Monday morning.

The men called from the immediate vicinity are: Stanley Wajzewicz, 1016 Lucella Ave. Milton M. Black, 806 Crest Ave. Alex. Aponasewicz, 908 Fallowfield. Gomer F. Malick, 515 Crest Ave. Zainto Laotti, 409 Eleventh street. Kaymier Duda, 900 Meadow Ave. John Lawkegales, 808 Oakland. Brice R. Ray, 121 Prospect Ave. Joseph Bontemps, 218 Crest Ave. Thomas Sweeney, 813 Crest Ave. Frederick A. Vonante, 200 Meadow. Faglio Fron, Shovel Row C. Robert McCurry, Charleroi. J. Russell Hornell, 833 Meadow. Willis Dale Phillips, 418 Lincoln. William Labish, 101 Lookout Ave. Francis Yates, 921 McKean Ave. Henry Elmer Barton, Roscoe.

Card of Thanks.
We wish to thank those who expressed their sympathy during the illness and death of our beloved daughter and sister Laura whose death occurred March 21.
Mr. and Mrs. C. E. Crabo and Family.

THE BIG BATTLE

There is no occasion for a panic behind the lines, which are bending, not breaking. It is the conclusion of a writer in the Pittsburgh Gazette Times, in speaking of the mighty offensive now under way by the Germans on the western front. Of course there is danger—every one recognizes that fact, but there is no cause for pessimism; the men in charge of affairs "over there" have not been caught napping and now that the offensive is developing its full purpose, there is every reason to expect that means are at hand to counteract the efforts of the German hordes which are now seeking to break through the British lines.

Premier Lloyd George sent a note of cheer to Gen. Haig when he said men and munitions and artillery were on the way, if not already on the ground, to help stay the onrushes of the Huns who are simply relying on the mere weight of man power to crush the lines in front of them. However, human exertion has a limit and the limit to the German offensive will come quite suddenly. The offensive may last several more days but in the meantime the allies will have made the necessary arrangements to meet the attacks, and with increased forces will be able to throw back the heavy legions of the Huns.

One effect of this great offensive should be to more thoroughly unite the American people that "this thing" spoken of by President Wilson shall be removed from the face of the earth. Democracy is not safe with the Kaiserbund enthroned in Germany. And we may accept the fact that the people of that empire are behind the junkers. When men will rush in such masses into almost instant death, as the hordes of Germans have been doing for the past six days, it means they expect to profit by the successes which they hope will follow in the footsteps of their efforts. These are facts which should solidify the American people to greater efforts than ever and put the entire resources of the country at the disposal of the government that the war may be won.

YOU MUST COME ACROSS

The third Liberty Loan, the first loan of 1918 will be the real test whether America really means to see this war thru to a victorious ending or whether we are merely a nation of "talkers," as Germans have repeatedly charged.

The first two Liberty Loan drives found us actively preparing for war and talking about what we were going to do. The launching of the third loan finds 400,000 Americans in the trenches in Europe and nearly 2,000,000 men under arms in this country. This would seem to indicate that we understand the task before us and have settled down to the grim business of war.

But wait a minute.

These men and 2,000,000 more who have declared their willingness to give their lives for the principles of liberty and democracy, must be fed, clothed and equipped. All agree that this must be done.

But how many will really help do it?

The way we answer that question will be the ACID test as to whether we are real or merely "talking" patriots.

After taking all the bonds you can afford as an individual here's another thing you can do. If you belong to a fraternity, lodge, or organization of any kind that has money in its treasury, start a move to have the funds invested in Liberty Bonds. There is no safer investment and these bonds will help feed and clothe the boys at the front and supply them with ammunition.

One thing is certain. We must come across or the Kaiser will. A bond will help stop him. And the best place to stop Europe's madman is in Europe.

Come across and the Kaiser can't.

Instead of "head in tail," the candidate will be asked, "wet" or "dry." It may be an embarrassing question to some.

A Significant Omission

By Marion Harland of The Vigilantes

The thoughtful student of the times in which we live cannot fail to note a significant omission in the several peace paeans issued by the Kaiser in summing up the results of each campaign. His exultant confidence that he has had the co-operation of high heaven in every victory is nothing short of advertisement of co-partnership with the Ruler of the Universe. This he proclaims in so many words and in terms that may well shock the reverent reader of Holy Writ.

In none of these proclamations does he once make mention of Him for Whom the whole Christian Family in heaven and earth is named—the Saviour of a sinful world.

I have called the omission "significant." It is too marked to be unintentional. To the Christian believer it does not seem possible that, at the height of his vainglory, the would-be monarch of the world dare blend with his thanksgiving thoughts of the Prince of Peace. The Apostle to the Gentiles would have condensed the ugly truth into six biting words—

"What concord has Christ with Belial?"

The most war-lustful imagination cannot picture the hands pierced on Calvary extended in blessing over thousands of ruined homes; roadsides lined with the corpses of violated women and innocent children; miles upon miles of desolated fields and once wooded cities blasted by shot and shell—in a word over Armageddon, where the blood bathes the bridge-bits

of the horses—scenes that bring irresistibly to the mind the Prophet of Nazareth's own words:

"For then shall be Great Tribulation, such as was not from the beginning of the world unto this time—nor ever shall be!"

Yes! the Lucifer of the Twentieth Century is wise in his generation in smiling seditiously aught that might remind the world he would conquer of the promised reign of Righteousness the triumph of Love over Hate.

Furthermore we write down the pompous braggart as infidel to the fatherhood of the God he blasphemes in arrogating to himself alliance with Deity in the most Unholy War. What place in the Kaiser's creed has the tender Parent Whose mercies are over all His works? Whose compassions fail not, and are new every morning?

Who clears the grinding berg.
And guides the grinding floe,
He hears the cry of the little kit-fox
And the lemming in the snow."

The Kaiser's god finds a feeble likeness in the pagan's Juggernaut, rolling right onward with a fixed smile upon his painted face, crushing and mangle old men and maidens, strong men of war and babies in his ruthless career.

To our shame he it said, we have been matter for mirth in the monstrous iniquity of coupling the Incommunicable Name with that of one who is daily proving his identity with the Anti-Christ of Prophecy. It is time that sane, reverent Christians should estimate a right sacrilege not to be spoken of lightly.

Prevent Caterpillar Plague.

The greediest thing on earth is a nestling bird. It consumes its own weight of food each day, with a daily gain of 20 to 50 per cent in growth. Little else than mouth and stomach. It spends nearly all its waking moments eating. A young robin in captivity requires fifty earthworms per day and asks for more. The progeny (a nestful) of a pair of European jays were observed by a naturalist to eat half a million caterpillars in a season!

Environment.

We are very much what others think us. The reception our observations meet with gives us courage to proceed or damps our efforts. A man is a wit and a philosopher in one place who dares not open his mouth and is considered a blockhead in another. In some companies nothing will go down but coarse, practical jests, while the finest remark or sarcasm would be disregarded.—Hazlett.

Japanese "Fish Sausage."

The "kanaboko" or "fish sausage" of the Japanese is described by a consular report as made by chopping the white meat of any fish, passing through a colander, and making into a paste, with a flavoring of sugar, salt, and rice-brewed alcoholic beverage called "Urin." The paste is made into loaves, steamed on boards an hour and a half to three hours, and at once packed in cans.

Young Diplomat.

David, recovering from a long illness, was given an eggnog daily, much to his delight, and much to the envy of his sister, Mary Jane. While David was drinking his, one morning, Mary begged for one too, but mother said, "No," whereupon mother heard David whisper to his sister: "Here, Mary, you drink this one quick, and when it is all gone, I'll cry for another one."

Not Worth Anything For.

"Aes' any gal," said Uncle Eben, "is smart enough to see dat a man ain' likely to be a good perrider if he puts in time makin' up a love letter when he might be earnin' four dollars a day."

New Source of Asbestos.

An enormous amount of asbestos is being found in the Prieska district, Cape Colony, and thousands of bags are now being shipped to England. It is said to be of very good quality.

Monessen Patient Speaks.

"I had been sick for one year having been treated from time to time without getting any better. I felt very weak. My heart beat too fast and had severe pain over it, headaches, poor appetite, kidney trouble, backache, nervous, felt sleepy all the time, trouble with my stomach. I commenced treatment with The United Specialists and in a short time am about in fine condition." (Signed) Mrs. Harry Airrison, 224 Donner Avenue, Monessen, Pa.

Was a Bad Case.

"For three years I had been troubled with a shortness of breath. I would get so bad at night I could not sleep lying down. I would have to sit up with pillows behind me. I felt all weak and run-down and did not seem to have any strength and together with my age, thought my time for this world was short. I called upon The United Medical Specialists and after a month and a half of treatment, I am feeling fine and working every day."

The Great Crises.

The great crises of life are often like a bolt out of the blue of a summer day; there is not a moment for preparation. In such crises all that a man has been doing in the way of preparation suddenly bears fruit. He often acts instinctively; he does that which he is in the habit of doing and because he is in the habit of doing his best and all his instincts prompt him to put forth the best that is in him, he seizes the golden moment and does not discover until afterward that it was golden.—Hamilton Mabie.

Period of Rest Coming.

See the studious young man. How solemn he is. His brow overhangs like the back of a snapping turtle, and he is as ominous as the first mutterings of an earthquake. He burns the midnight oil in great quantities, poring over ponderous tomes until he is worn almost to skin and bones. But never mind, he will presently have ample opportunity to rest. In a short while he will be admitted to the bar, and after that he will not have anything to do.—Kansas City Star.

Practical Soul.

"So you have been to the mysterious Orient," said the impressionable young woman, "that vast region athrob with a strange life, gray with the dust of centuries, and brooded over by the spirit of the past?" "Why—er—yes," replied the practical man, who went abroad strictly on business. "Do tell me what you found there?" "The worst hotels on the face of the earth."—Birmingham Age-Herald.

Ancient Watch Tower Still Stands.

At Mifflin, or the watch tower, still exists to the east of the town of Gaza. It is where Samson is said to have carried the gates of the city. On the road from Gaza to Jaffa are those ancient olive trees, many of them more than a thousand years old, with gnarled bark and immense trunks. There is an old legend which credits Gaza with the invention of the first mechanical clock. These were perhaps the sundials which are still used in some mosques.—Christian Science Monitor.

Plants That Have Emigrated.

Neither the laborer nor the commoner is indigenous to this country, the latter having been introduced from the Alpine region of Europe and the latter from Persia, where "Hilae" is the name given to the flowers. The horse chestnut was originally a native of Asia, probably of northern India, whence it was introduced into Europe in about the middle of the sixteenth century.

Sawing Through Diamond.

The old proverb about diamond cut diamond used to be true, but today a diamond can be sawed through by a thin disc of phosphor copper revolving about 3,000 times a minute. For many years all diamonds had to be cut in Amsterdam, where the Jews had a monopoly of the trade of diamond cutting. Even the Cullinan diamond was sent there to be "cleared" in two.

Handy Container for Tacks.

By cutting a small, triangular opening in one corner of a tin, or cardboard, box containing tacks, screws, or nails, time is saved and annoyance avoided in shaking out the small quantity desired. This opening should be only large enough to permit the pouring out of a few of the tacks at a time, so that one or two can be poured into the hand as desired.—Popular Mechanics Magazine.

Knew What He Needed.

Lawrence was intensely interested in his father's new auto. One day he was walking with his mother on an icy street when a man just in front of them came near falling. Lawrence laughed heartily at the man's wild wrappings of arms and legs and then remarked to him: "Mister, you need some skid chains."

Lobster's Shell.

The shell of the lobster is imbued with a black or blackish pigment secreted by the true skin, which also gives out the calcareous matter after each moult, so that time and pigment are blended together. This pigment becomes red in water at the temperature of 112 degrees Fahrenheit.

Iron Rust.

Few stains are so obstinate as iron rust. They may, however, be removed from delicate fabrics by covering the spot thickly with cream tartar, then twisting the cloth to keep the tartar on the spot itself. Put that part into a pan of cold water, bring gradually to boiling point, and afterwards rinse in the usual way.—Exchange.

Airplane Needs Much Wood.

About 200 board feet of wood is used in the actual construction of the average airplane. To obtain this material it is ordinarily necessary to work over about 1,500 feet of select lumber, which often represents all that can be used for airplanes of 15,000 board feet of standing timber.

True Gospel of Work. Work is the glory and delight of life, and the only acceptable excuse for being in this world, and the object of all practical investigations of the principle of fatigue and recovery is to find out, not what is the least possible amount of work that a human being can get along on, but what is the greatest amount that he can do without decreasing his working capacity. Such is the gospel of work, which those who are not of the elect may regard as hard doctrine.—Exchange.

SCHOOL GIRL TELLS OTHERS

How They Can Find Relief From Periodic Sufferings.

Nashua, N. H.—"I am nineteen years old and every month for two years I had such pains that I would often faint and have to leave school. I had such pain I did not know what to do with myself and tried so many remedies that were of no use. I read about Lydia E. Pinkham's Vegetable Compound in the newspapers and decided to try it, and that is how I found relief from pain and feel so much better than I use to. When I hear of any girl suffering as I did I tell them how Lydia E. Pinkham's Vegetable Compound helped me."—DELANA MARTIN, 29 Bowers St., Nashua, N. H.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, therefore is a perfectly safe remedy to give your daughter, who suffers from such painful periods as did Miss Martin. The reason so many girls write Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice, is because from their 40 years experience they have a store of knowledge which is invariably helpful.

STUDENTS ENJOY HIGH CLASS TALENT

The Chapel exercises at high school, this morning, were made more than unusually interesting, owing to the appearance of Miss Norma Bosson and Miss D. W. Sass, both of whom are under contract with the Redpath Lyceum Bureau, together with Sergeant Aubrey Clerihue of the 225th aero squadron, now located at Hempstead, L. I. Miss Bosson played "Schoen Rose Marin," by Kreitzler in a delightful manner. In response to a rousing recall, she rendered Nevin's "Rosary" very impressively. Her auditors were so insistent, however, that she finally responded with "My Old Kentucky Home." Miss Bosson's playing was a distinctive pleasure and her presence was much appreciated by the members of the student body. Miss D. W. Sass, who demonstrated that she is an elocutionist of pronounced ability, as well as a good accompanist, gave as her first number, an excerpt from Shakespeare's "Twelfth Night." Her effort so impressed her hearers that she was vociferously recalled and Miss Sass graciously responded with four different selections, before finally leaving the stage. She will be gladly welcomed at the high school at any time. Sergeant Clerihue gave an interesting talk on his experiences, since becoming identified with the aviation service. He spoke of his enlistment and the various happenings, prior to his arrival at Kelley Field, Texas, where he has been located for some time. He has been recently transferred to Hemp-

DANGERS OF A COLD

Charleroi People Will Do Well to Heed Them

Many bad cases of kidney trouble result from a cold. Congested kidneys fall behind in filtering the poison-laden blood, and backache, headache, dizziness and discolored kidney action follow. Don't neglect a cold. Use Doan's Kidney Pills at the first sign of kidney trouble. Here is an experience told by a resident of this locality:

George McCans, pattern foreman, 120 Thompson Ave., Donora, Pa., says: "A heavy cold settled in my kidneys. A dull pain in my back bothered me most all the time, especially while working. I knew that my kidneys were disordered and I got a box of Doan's Kidney Pills. They cured me of the attack. Once in a great while, I take a few doses of Doan's Kidney Pills, when troubled by my kidneys and they always relieve me."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McCans uses. Foster-Milburn Co., Props., Buffalo, N. Y.

Don't wait until your blood is impoverished and you are sick and ailing; take Hollister's Rocky Mountain Tea now: it will drive out the germs of winter, purify the stomach, regulate the bowels—nature's spring tonic-cleanser. Hennings Drug Store.

Along with its celebration to commemorate the eight hour anniversary next Monday, Charleroi will have an opportunity to give a rousing send-off to the men who will be leaving for Camp Lee. We apprehend that it will be some demonstration.

The political atmosphere will begin to warm up before many days. The primaries are less than two months away with a prospect of more candidates coming into view.

OVERWORKED, TIRED WOMAN TOOK VINOL

Why I Became a Chiropractor

Jackson, Michigan.

I am the son of a medical doctor (who practiced medicine for over forty years.) I was educated for the same vocation in life and after having over nine years' experience in medicine, discovered, through medical advice, that I had what is called Sugar Diabetes. I weighed but 103 pounds; was passing pus with the urine and was given up by the medical profession. No help was the verdict. A druggist friend advised me to try chiropractic and as a last resort I consulted a chiropractor, he giving me hope of renewed health again. After a course of adjustments I was fully restored to health again. I have never had any return of my old disease since, and that is nearly 6 1/2 years ago.

That, alone, convinced me that there was the method. I had been seeking something I could do honestly to help suffering mankind. I took up the study and have been in active practice 5 1/2 years—which have been the most happy years of my life, because I have been able to do so much real good and restored hundreds to health again who never expected a return to their old time vigor.

Edwin O. Salisbury, M. D., D. C.

Good Results from Chiropractic Adjustment where medicine was not even beneficial

Cincinnati, Ohio.

Chiropractic has come to stay. For many reasons people are demanding drugless methods. Here is one in which the "treatment" (?) occupies but a few minutes. The effects are generally satisfactory. Relief can be given to many to whom medicine and surgery are not applicable or not even beneficial. Something is needed when medicine and surgery fail. Here is a method with which investigating minds will be well pleased for it is full of surprises and gives instant satisfaction for the reason that causes and effects can be traced by the frequent results obtained in applying this form of treatment.

Some suggestions have been made to me by physicians about doing some hospital work by Chiropractic methods.

In my practice of chiropractic, I am very busy indeed, exceeding anything that I thought possible in so short a time as has elapsed since graduating as a chiropractor, particularly in regard to the number of patients I am adjusting daily as well as the severity of the "diseases."
